Part III ADVISORY ACTION

Request For Withdrawal of Extension of Time

1. Applicant's letter requesting a withdrawal of the one month extension of time and return of the fee can not be granted.

2. The extension of time (and fee) was required in order for the accompanying amendment to be considered. The amendment was considered and deemed inappropriate for entry after a Final rejection.

Without the extension of time, the amendment would not have been "timely filed" and would not have been considered at all.

3. The applicant states that "the response period expires 3 months from the date of mailing the <u>advisory</u> action". This is incorrect.

The response period ends three months from the date of the **Final rejection** or (if the 3 months have already lapsed) on the date of mailing of the Advisory action.

Amendment of 13 January 1998

- 4. The amendment of 13 January 1998 will not be entered because of the following reasons:
 - a. The form of amendment is not proper. Brackets and underlining are the correct form for amending the claims. For amending the specification, indications as to where to insert some words or delete some words is the proper form.
 - b. Narrative explanation or remarks should not be interspersed with the amendment to the specification. Set out a section with the amendment by page and line number, and then if necessary provide a separate section of "REMARKS" addressing any issues.
 - c. Any major changes to the specification should be accompanied by a declaration stating that new matter has not been introduced.
